

This Training Session:

This session is designed for small systems. There is a two-fold focus to this training. First, understanding your systems sampling schedule and how to retrieve data for your system from MT-DEQ's online query reports. Second, understanding sampling procedures for both bacti and all of the required chemical sampling. We will also cover some examples, both positive and negative, of things observed during sanitary surveys. A presentation on the recently implemented groundwater rule will also be included.

ADA Meeting Announcement Statement:

MRWS will make reasonable modifications for persons with disabilities who wish to participate in this public training. If you would like to request an accommodation, contact Kevin Durocher at least 5 days prior to the event to advise us of the nature of the accommodation that you need.

REGISTRATION—8:30 am—9:00 am

Training Starts @ 9:00 am

- ◆ Intros/Basic Information
- ◆ Groundwater Rule Made Simple (Kevin Durocher - MRWS)
 - An overview of the Groundwater Rule highlighting the key aspects and how it integrates with the TCR Rule.
- ◆ Retrieving Monitoring Schedules & Sampling Data (Kevin Durocher - MRWS)
 - How to access DEQ Query Website
 - Understanding acronyms & abbreviations
 - Sampling & Monitoring data for your system

12:00—1:00 ****Lunch On Your Own****

- ◆ Sample Collection (Shari Endy - Energy Lab)
 - Sample Collection Procedures: Do's & Don'ts
 - Timing your sample collection to the mail & lab schedule
 - Examples of what not to do.
- ◆ Bacti Sampling (Energy Labs Microbiologist) ****If Available****
 - Quantitrays
 - UV Light
- ◆ Sanitary Surveys: Examples of Do's & Don'ts for Water Systems (Kevin Durocher - MRWS)
 - A slideshow of photos taken at water systems showing a variety deficiencies as well as examples of corrected deficiencies.
 - Photos should promote audience questions & discussion.

4:00 pm DISMISSED

Please E-mail Kevin at kdurocher@3riversdbs.net if you plan to attend!
